

A MESSAGE TO OUR CLIENTS:

With the current COVID-19 pandemic, we want to send you a brief note to assure you that the Modular Home Additions office is still open and construction projects will continue to go on as usual (as much as possible given the current situation).

Our team is still working hard (while practicing social distance) to provide clients with information regarding their future projects.

If you are interested in an estimate for your construction project, we are also available to provide our quotation electronically thus the cost and process related to discussions typically done during the scheduled office meetings will be handled via conference calls, video communications and email exchanges.

Please contact our front desk at 416 759 4663 reception@modular.ca for further information.

We will try our best to continue with our service as usual, and hope the situation normalizes soon.

Thank you, stay safe.

MODULAR TEAM
